

Blade

Surfacing for Off-Ice Areas

PRODUCT ATTRIBUTES

- **9mm of Dense Vulcanized Composition Rubber**
Provides exceptional durability and slip resistance

Blade is a solid 9mm vulcanized composition rubber product that is specifically designed for areas where athletes are walking on skates. Whether you need surfacing for right around the rink, the walkways, or the team locker room, Blade is the perfect solution. Blade is formulated to be very dense and durable to withstand skate traffic, and it also is slip resistant whether wet or dry for those walking without skates.

APPLICATIONS

- Ice
- Locker Rooms

BENEFITS

- Durable
- Blade resistant
- Slip resistant both wet and dry
